YA Circular Vibrating Screen

Product overview

1. YA circular vibrating screen trajectory is round, the vibrating screen using an ordinary motor to drive the exciter, so that the screen body along the direction of exciting force for periodic reciprocating vibration, material on the screen surface for continuous circular motion, so as to achieve the purpose of screening.

2. YA circular vibrating screen is composed of vibration source, sieve body, sieve mesh, damping device and bottom bracket.

Product features

1. Screen box vibration is strong, reducing the phenomenon of material blocking the sieve hole, so that the shaker has a higher screening efficiency and productivity.

2. Simple structure, easy to replace sieve mesh.

3. Screening per ton of material consumed by less energy, in line with energy-saving requirements.

4. Strong exciting force, low noise, large capacity, is the company's environmental protection products.

Applications

1. Metallurgical beneficiation grading operations.

2. Coal preparation of dry materials grading operations.

4. Power industry of dry materials grading operations.
# YA Circular Vibrating Screen

## Main Specifications

![Diagram of YA Circular Vibrating Screen with labels for Sieve, Damping Spring, High Outrigger, Protection Cover, Upper Screen, Middle Screen, Lower Screen, Motor, and Bracket.]

Enterprise Profile

Since 1954, Winner Group started the factory manufacturing Vibrating Feeder, Jaw Crusher, Impact Crusher, Cone Crusher, Vibrating Screen, Belt Conveyor, Construction Demolition Waste Recycling, Municipal Solid Waste Recycling, Sand & Stone Production Line and so on, with a wide application in Coal industry, Steel, Metallurgy, Mining, Construction, Chemical industry, food industry etc.

Located in Xinxiang city, China, 1 hour by car to the airport, with employee more than 1000, among whom 380 R&D engineers, a provincial research center, owning 133 invention patents and utility patents, ISO and CE criteria, top brand in domestic market and more than 30 countries exporting cases, this is how Winner Group guarantee the product quality and technical services.

With lots of government quality awards and technique awards, Winner serves the customers including China Bao Steel, China National Coal Group, Shenhua Group and Exports to USA, France, Brazil, India and other countries. Winner Group will always be there to provide you customized crushing and sorting solutions.
